this eighty-first annual meeting of the Association.

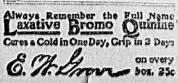

Rev. C. T. Herndon led off in a speech that was mild enough. He dealt with the fundamental principles and spoke only of the important general work of the board. He was followed by Dr. B. D. Gray, of Atlanta, the secretary of the Home Mission Board of the Southern Baptist. Convention. Dr. Gray hald before the Association the claims of the Home Board, specially emphasizing the question of adding the negroes of the South in the matter of evangelization on his theme Dr. Gray was particularly happy, and in an impressive manner he made the point that the best work that a superior Christian race can do for one that is inferior is to set a good example by living right in their sight, thus "illustrating Christ always before them." Much of the Doctor's address was devoted to Cuba, and he paid an eloquent tribute to President Palma, of Cuba, who, he serving the new republic in a way that will tell in the ages to come. "Religious freedom," said, the speaker, "came to Cuba with civil liberty and the Southern Baptists were the first to enter and begin the Judicious cultivation of that prolific field."

held."

In the course of his speech Dr. Gray said two hundred million dollars of American money has already been invested in Cuba. Speaking of the fertility of the friand and its possibilities, he said Cuba, which now has a population of only a million and a half, can support a population of ten million, and this teening population must be taken for Christ.

It was very apparent that the discussion was likely to grow warmer and warmer as it proceeded, and at one time as many as a half dozen speakers were clamoring for the recognition of the chair at one time.

The most of them had risen to points The most of them had risen to points of order with a view of putting an end to the mildly exciting discussion. Finally the point was raised that the "Home Loard' time had expired, and the regular order was State missions. Or of the report of the General Association of the Arguments in favor of foreign missions. The commands of Jesus Christians transcended by the yound any production of the missions. The commands of Jesus Christians transcended by the yound any production of the missions of the Haptist denomination some facts pertaining to the work, upon which action may be based. The Foreign Mission Board of the Southern Empilet Convention is located in the city of Richmond; in this State. It consists of twenty-one members: This board with its great-hearted and great-hearded corresponding secretary, and its devoted and gifted assistant secretary, has been a great blessing to the Baptists in Virginia.

"There are some expenses in this country in connection with the work of the board, such as printing, traveling, rent, salaries of secretaries, postago, sic. All of thees for the past year, including a part of 1993 and 1901, embracing the expenses of the Woman's Missionary Union, amounted to six cents on the dollar, leaving minety cents on the dollar, leaving the costs more to run the matchinery of the board than the amount sent to the missionaries. We cannot divine why some people will be so perverse, when the facts in the case can be so easily obtained from the most reliable sources.

"If we will largely increase our contributions the per cent of expenses for last year amounted to nearly \$25,000. If we were to raise \$50,000 for the work it would reduced. The expenses for last year amounted to really \$25,000. If we were to raise \$500,000 for the work it would take about five per cent to carry it on. "We have 138 missionaries in the foreign field, sixty-eight males and seventy-live fermeles. There are sixty-eight ordained native helpers, 115 unordained male helpers and thirty-two females, making in all 353 workers. During the year 2,076 baptisms. We have missions in China. Dr. Hatcher offered a fervent prayer for divine blessings upon this work and for more laborers for the harvest.

The Young People. According to the programme the report on the work of the Baptist Young People's Union should have come up at the morning session, but it was sidetracked by the somewhat exciting discussion on the Home Mission report. It come in as a kind of postscript to the night session. Dr. George Braxton Taylor offered a resolution commending the work among and for the young people, and President William A. Harris and Rev. Step Important One.

(By Associated Press.)

ST, PETERSBURG, November 17.—At the Foreign Office the Associated Press learned that there is absolutely no cause for the alarmist report regarding the hitch in the Ango-Russian convention, which it is confidently expected will be removed and a full agreement reached within a few days. The report that Ambussador Benkondorff will be recalled is idiculous. The situation is explained as follows:

Russia provisionally accepted the text of the convention in English as submitted by Great Britain, but when it was translated, exception was taken to the phrasociogy, particularly to the portion referring to the determination of the question of blame, Russia contending that the context did not clearly raise the question of any blame, which might attach to the other side. Exception was also taken to the language relating to the firing upon the fishermen, which as worded, left the impression that the Russian ships knowingly fired upon them. Consequently, Russia prepared an entirely new text in French, which was submitted, but was rejected by Great Britain. Then, After some exchanges in which French assistance was acknowledged an arrangement was reached that each submit new texts, from which no difficulty is anticipated in reaching a final conclusion. One of the points agreed to is a preamble wherein the procedure is desired, but more important is a proposition for a supplementary article, which will lay down the procedure for this convention and for any inquiries of a kindred nature, the necessity for which may arise in the future between the two countries.
